1.1	Usage . . . . .	3
1.2	API . . . . .	3

BBCP stands for Brain Behavior Center P, the neuroimaging section of CIRNA (Center for Interdisciplinary Research for Nicotin Addiction) at University of Pennsylvania. Here we focus on using neuroimaging techniques to explore biomarkers that would influence tobacco addiction behavior. BBCP has conducted projects that involves genetics, metabolism, and cognitive aspects of addiction behavior.

Check out the [\*Usage\*](#) section for further information, including how to [\*Installation\*](#) the project.

---

**Note:** This project is under active development.

CHAPTER  
ONE

---

CONTENTS

## 1.1 Usage

### 1.1.1 Installation

To use Lumache, first install it using pip:

```
(.venv) $ pip install lumache
```

### 1.1.2 Creating recipes

To retrieve a list of random ingredients, you can use the `lumache.get_random_ingredients()` function:

The `kind` parameter should be either "meat", "fish", or "veggies". Otherwise, `lumache.get_random_ingredients()` will raise an exception.

For example:

```
>>> import lumache
>>> lumache.get_random_ingredients()
['shells', 'gorgonzola', 'parsley']
```

## 1.2 API
